

InsureX Life Secure - Term Life Insurance

SAMPLE DOCUMENT - fictional content created for the InsureX AI test case. Not a real product.

1. Product overview

Life Secure is a level term life insurance that pays the full sum assured to the family if the insured dies during the policy term. Two terms are available: Life Secure 10 (10-year term) and Life Secure 20 (20-year term). Premiums stay the same for the whole term.

2. Eligibility and sum assured

Entry age is 20 to 60 years old; the policy must end before age 75. The minimum sum assured is 500,000 THB and the maximum is 10,000,000 THB. A sum assured above 3,000,000 THB requires a medical examination.

3. Annual premium per 1,000,000 THB sum assured (non-smoker)

Entry age	Life Secure 10 - male	Life Secure 10 - female	Life Secure 20 - male	Life Secure 20 - female
25	2,100 THB	1,700 THB	2,600 THB	2,100 THB
30	2,400 THB	1,900 THB	3,100 THB	2,500 THB
35	3,000 THB	2,400 THB	4,000 THB	3,200 THB
40	4,200 THB	3,300 THB	5,600 THB	4,400 THB
45	6,100 THB	4,700 THB	8,300 THB	6,500 THB
50	9,000 THB	6,900 THB	12,500 THB	9,600 THB

Smokers pay 40% more than the non-smoker premium.

4. Tax benefit

Premiums of a life policy with a term of 10 years or more can be deducted from personal income tax up to 100,000 THB per year, according to Revenue Department rules.

5. Exclusions

No benefit is paid for suicide within the first year of the policy, or for death caused by a pre-existing condition not disclosed in the application.

6. Selling points for agents

Life Secure gives high protection for a low premium: a 30-year-old non-smoking woman gets 1,000,000 THB of cover for 1,900 THB per year on Life Secure 10. It is ideal for parents with young children and for customers with a home loan. Suggest a sum assured of at least 5 times the customer's annual income.
